Failure to report on your return may invoke a penalty at the absolute discretion of the Tournament Committee. Boats which elect to continue fishing after-hours are to report that decision to SGFC Tournament base, which will be accepted as a sign-off.

16. Weigh Station Procedures

Once boats enter the vicinity of the weigh station, they are under the control of the Tournament Official at the weigh station, boats must have completed and have ready for presentation all equipment used to affect the capture or tag & release and applicable paperwork.

17. Submission of Tags or Captures

Tag & Release cards, capture certificates and captured fish must be submitted on the day of capture or tag and must be brought to the weigh station aboard the vessel on which the fish had been fought. The transfer of fish, tag & release cards or capture certificates to another vessel or delivery of captured fish by a vehicle is not permitted.

The time of boating a fish must be noted on the capture certificate or Tag & Release card for consideration in the event of a count back. The time of Tag & Release is when the fish is released back into the water alive. If no time is detailed on the tag card, it will be recorded as the end of fishing for that day.

On Saturday there is no cut-off time for boats to return to port, however all tag and capture paper work relevant to the days fishing must either be handed in directly at the SGFC weigh station or be emailed to SGFC (club@sgfc.com.au) before 8:30pm unless an alternative time has been specifically arranged with SGFC Tournament Base.

On Sunday all boats with fish to weigh or tag cards to present must be at their designated weigh station by 6:00pm and all tag and capture paper work relevant to the days fishing must either be handed in directly at the SGFC weigh station or be emailed to SGFC (club@sgfc.com.au) before 8:30pm unless an alternative time has been specifically arranged with SGFC Tournament Base.

For all categories except the Heaviest Marlin category boats may return to their home port on either night of the Tournament.

Please Note: the following additional rules apply to boats electing to return to a Port other than Sydney on either night

When weighing fish or submitting tag & release cards at a port other than Sydney Game Fishing Club, it is the skipper's responsibility to contact the relevant club's weighmaster before attending the weigh station, to ensure the weigh station they are attending has an Official Weigh Master available for verification.

18. Radio Communications

Radio Skeds must be conducted in accordance with the NSWGFA "Guidelines for Radio Skeds for Tournament" effective as at the time of the Tournament.

Tournament Base, or the nominated radio boat, will call each boat in number order on SSB 2284 or VHF Channel 21 on two hourly skeds commencing at 8:10am and a final sked at 5:10pm. The number of people onboard should be advised during the first sked for the day.

1. Boats are to report on each sked as follows–

- a. Boat Number
- b. Boat Name
- c. Accurate fishing report using the "0-0-0" system – strikes, hook-ups, captures & specify line class and angler name accurately. If possible, boats are to give suspected fish species for strikes and hook ups not landed as well as for captures. Short Measurement of captured fish and accurate weight of captured fish must be reported in fishing report.
- d. Position using Central Zone grid chart, and whether travelling, trolling, anchored or drifting. Please Note:
 - i. If any vessel is unable to fish on either competition day, it is a requirement that the SGFC Tournament base be notified, either by radio or by telephone. Clubhouse telephone is 02-9337-5687.
 - ii. Should any vessel suffer total radio failure, the skipper must attempt to notify another vessel of the problem, and then MUST return immediately to port. Once in port it is the responsibility of the skipper to sign off with SGFC Tournament base at Watson's Bay.
 - iii. If vessel misses two (2) radio skeds, this will trigger the relevant safety authorities being informed.
 - iv. Captures and tags not reported or not reported accurately on each radio sked shall not be counted and shall not be eligible for trophies.
 - v. All boats are to report on EVERY sked. All boats must report to Base on returning to port. Radio silence must be observed for 10 minutes before the end of stop fishing to allow for report of late hook-ups. Fish caught subsequent to the last sked prior to the end of fishing should be radioed through to base at the time of the capture.
 - vi. On the final sked of each day each boat is required to confirm their tally of weighable fish landed, tag & release results for the days fishing and expected time to arrive at designated returning port.

19. Bad Weather

If a "Gale Warning" or higher category of warning is issued after the commencement of fishing only those fish captured or tagged prior to, or at, the time fishing is cancelled will count in the Tournament. Any fish still being played which are subsequently captured or tagged will not count for this Tournament

The cancellation of fishing will only apply until the Gale warning is lifted (by BOM)

In the event that prior to the Tournament the weather looks unfishable the Tournament committee has the right to cancel and reschedule the Tournament at their discretion.

20. Fishing Rules

Fishing rules as published by GFAA and NSWGFAA (including NSWGFA minimum weights and point score system) shall prevail throughout the Tournament, which covers all eligible NSWGFA line classes and species. NSWGFA Tag & Release rules will apply. Current rules are available online at the NSWGFA website.

All anglers must carry a Saltwater Fishing Licence if applicable. Bag limit and size restrictions must also be adhered to. All competitors are reminded that it is an offence to tie up any vessel and to objects such as wave-riders, FADs or fish trap buoys, and disqualification from the Tournament may result for breaches of this fisheries regulation.

21. Circle Hook Definitions

22. Tackle

All rods, reels, lines, tackle, gaffs, and gaff ropes used in effecting a capture must be ready for presentation at the weigh station with captures or submission of Tag & Release cards.

The use of backing is permissible. (Note: there is no restriction on the type or size of backing used as long as it is Monofilament, multifilament, lead core multifilament but not wire.) The catch shall be classified under the breaking strength of the first five metres of the line preceding the double, leader and hook.

Yellowtail Kingfish under 70cms will apply for Junior & Small Fry Personal Points only and not boat points. Use measure & release cards.

24. Tag & Release

To be eligible for scoring in the Tag & Release section of this competition, completed tag cards including capture sheet must be lodged as follows:

- All Billfish must be tagged with a Billfish tag. This is the only tag that will be recognized for Billfish in any Tournament, competition, point score or trophy. The Billfish Tag is for Billfish only point score (ie no other species).
- All Tag & Release cards must show the time the fish was tagged and released, and must be handed in at the weigh station to the weigh master on return to SGFC. If no time is included, the time will be recorded as at close of fishing on the day the tag was made, unless known to have been caught later.
- Fish must be fought according to NSWGFA rules and regulations to qualify for Tag & Release.
- Terminal tackles to be supplied hook, trace, double and at least 3 meters of line.

In the event of a tie on any prize category the count back system will be used to determine the winner, i.e. the angler or boat to reach the winning score first will be deemed to be the winner.
