### **IBW Constructions**

Located in the Eastern Suburbs of Sydney, IBW Constructions is a family owned business with over 33 years in the building industry. We help you design and build the home of your dreams.

We specialise in home extensions and can add a wall, room or entire floor. Our fully trained and qualified staff build home extensions that have the right balance of design, practicality and function.

Our goal has always been to provide premier home extensions at affordable prices with minimum disruption to your family. We are hands on and start the renovations as soon as you are ready. We are the one stop company for all your extension needs. Our workman paint, provide electrical work and plumbing making us the perfect choice for any room.

### Adding or removing a wall:

Adding or removing a wall is a great way to quickly change the layout of a room. Adding walls break up large rooms to make two smaller ones, this is common when creating living and dining areas. Removing a wall creates beautiful open spaces. This is an affordable option for creating an open kitchen/living area.

### Adding a room:

Adding rooms are the most common extension IBW Constructions provide. Adding a room is the perfect way to create a bigger home without moving home. Our design experts and builders work together to create seamless extensions that match the original dwelling. We regularly install second bathrooms and extra bedrooms.

### Adding a Second Storey:

Adding a second storey can double the size of your home, it is faster than building an entire property from scratch and cheaper then moving house. Adding a second storey is a great option for expanding families. We find second stories are usually used for master bedrooms with ensuite's. Add value and space to your home with a home extension.

### FROM THE PRESIDENT

So it is already September 2019/ 2020 and it is an honour to be re-elected President of this great club! I would also like to welcome back our two Vice Presidents Simon Fisher & Benn Dullard, as well as a warm welcome back to the committee members for the 2019 / 2020 season. We look forward to another exciting year and hopefully a more prosperous one on the fishing scene.

With Spring comes the start of the Summer Pointscore season. Firstly, I hope that everyone has used the down time to accrue some brownie points at home and to fully service all rods, reels and associated fishing gear. Inside this edition we have a great story & video on reel maintenance which will hopefully assist you in minimising those 1%ers this season.

The first round of the Summer Pointscore combined with the Central Zone competition begins with the Wollongong Game Fishing Club Tournament which will be fished over the weekend of the 21st and 22nd September. This is a great way to start your new

season off while supporting a fellow Central Zone Club. If you can only fish one day, please log on to Tournament Base radio as this will be your point score day for SGFC & Central Zone. Once again Julian Hutchen is our Central zone officer for this season. Julian's details can be found on the inside of this magazine and as always if you have any questions about Central zone please don't hesitate to ask. I understand that logging on and doing sched reports can be an intimidating process at first however it is critical to helping the club take out the top honours at the end of the year. Last year we had a number of new members who did not log on and caught great fish so it would be great to see everyone rewarded for their efforts this year. If you do have any questions myself and all of the committee members would be happy to assist or as always you can contact us through the club facebook page. Remember there's no such thing as a dumb question, so make sure if you unsure of anything that you ask!

Still with Julian we are pleased to announce the next Out West meeting will be held at Julian's place on Friday 25th October. This is always a great night, with plenty of boats, BBQ's and raffles so pencil it in your diaries now.

Don't forget to get your raffle ticket for our biggest raffle yet, all proceeds go to next year's Peter Goadby Memorial Tournament, so get behind your club & your tournament (thanks again to Phil & Vicki Webster for donating such a generous prize).

Socially with October coming on we will still be holding our Kid's Fishing Day combined with the national Gone Fishing Day.

We will need skippers, boats and deckies to help out on the day with simple duties such as rigging (and untangling) lines, changing hooks, baiting up and catching fish for the day, this is always a very popular day with kids & families we do limit it to 50 kids so please book in early.

Another very important day is the Children's Christmas Party day where we take families out from Randwick Children's hospital so this year, lock in the date of Saturday 7th December.

Once again, we will need your help with boats, skippers & deckies needed.

Tightlines **Tiddles** 

# 2019 SGFC Major Raffle of the Year

A huge thank you to Phil and Vicki Webster for their generosity for the 2019 Raffle of the year, a 4 hour cruise on Lady Audrey includes local beer food and wine for up to 30 people. Tickets are \$100 each please see Annita. If you can help sell some tickets please see me.

ALL PROCEEDS GO TOWARDS THE 2020 PETER GOADBY PRIZE POOL.

### A National Day to Celebrate our love of fishing and to share that passion with the next generation

### About the Day

Gone Fishing Day is a National Event. A Day when all Australians can get out on the water and celebrate our love of fishing. It doesn't matter if you have fished before, Gone Fishing Day is for everyone. There are many scheduled events all over Australia just make sure you put it in your diary and grab your family or your best mate or friends and head out. Apart from the many events going on you can also be in line to win some awesome prizes, Visit www.gonefishingday.org for more information about the National Events.

### Kids Fishing Day/Gone Fishing Day @ SGFC

For many years now SGFC have been running a special event for the kids of the local community. Our Kids Fishing Day (with the help and support of many of our Generous Skippers) sees us take 50 kids out on the water for an amazing days fishing on Sydney Harbour in some of our beautiful club boats. For \$20 per child they will each receive a rod and reel to keep, lunch and drinks, bait and tackle provided and a fantastic day on the water on one of our club boats. What a bargain! We are however limited to 50 kids so bookings are essential.

### How to Book

Numbers are limited to 50 and Bookings are Essential. Payments can be made directly to Annita Flannery prior to the day to secure your place on 0402 615 814. The cost is \$20 per child (BBQ Sausage sizzle and drink will be provided)

### SGFC Members/Skippers wanting to help (with/without boats)

WE NEED YOUR HELP! We need boats, crew able to look out for the safety of our kids and families and help them catch fish, people to help out with food. manning the BBQ and helping out around the club.

If you would like to offer your boat or services on the day please text or call Greg Wall directly on 0416 027 865. If you can help out on the day we would love you to be involved.

### **Reel Maintenance**

How many times have you been keen for a fish, packed your gear, only to find your reel running a whole lot rougher than when you used it last? Or even worse completely seized up or suffering from the dreaded green powdery corrosion? Unfortunately fishing in saltwater exposes fishing reels to one of the harshest environments out there, and if maintained incorrectly, you're not going to get the long happy life you were expecting out of your prized piece of fishing weaponry. In some cases, reels can even suffer from being loved too much, where going the unnecessary extra mile to look after your gear actually causes more harm than good. With the gap in seasons, now is the perfect opportunity to settle in to all those annoying maintenance tasks that we have been putting off throughout the season. So, here is a step by step list to ensure your pride and joy is with you for many more sessions to come. It's actually a lot easier than you think and for those of you looking to take your maintenance program to the next level click the photo to link you to a video on the full program for maintaining your tiagras in mint condition.

### **STEP ONE:**

Tighten the drags on all the reels you are wanting to clean. This prevents water entering into the drags washers and causing them to get soggy.

### **STEP TWO:**

Fill a bucket with warm water and grab yourself a clean rag to put in it. Thoroughly wipe the reel completely free of any crystallised salt and dried water marks.

### **STEP THREE**

Run warm water over the line, this prevents salt build up and corrosion in the spool and helps to keep your line in good condition.

### **STEP FOUR**

Allow to air or towel down with a dry clean rag.

### **STEP FIVE:**

With a spray lubricant like reel guard, inox, lannogaurd spray each of the moving parts accessible from the outside of the reel. This includes the handle, bailarm hinges and line-roller bearing before loosening the drag.

### **STEP SIX:**

Wipe away excess oil with a clean clothe, return to padded reel case and store out of direct sunlight.

It's as simple as that. Remember under no circumstances spray your reels with a hose, pressure gun or completely submerge them in water. This drives the salt and other grime into the reel rather than washing it away.

# PRESIDENTS BIRTHDAY - PRAWN & OYSTER DAY SOCIAL EVENT MEET AND GREET AT SGFC

12th October 12 noon onwards

You need to Book
Limited numbers
Great Day Great food
Great Family environment
Enjoy your Club
Meet the members of your club

# Geoff Woolley Memorial Monster Mako Tournament 2019 3rd - 4th August, 2019. Wrap up

Champion boat was taken out by Undertaker from PHGFC, on a count back from Mr Pig. Undertaker also won heaviest Mako, with a 151.5kg version, caught by Small Fry Angler, Jayden.

Jayden didn't stop there. He took out both categories for Champion Small Fry Angler- Capture and Tag & Release. Well deserved congratulations to the team from Undertaker.

The young gun from Mr Pig (Central Coast GFC), Oska Davis, won Champion Junior Angler - Capture (91kg Blue Shark) as well as Champion Junior Angler - Tag and Release. As mentioned above, they were just beaten on a count back for champion boat. So close.. Well done all.

What a great job from the young men from Undertaker and Mr Pig. They out-fished the rest of the field and showed the grown ups how it is done! It's great to see quality young fisherman coming through. Well done to both teams.

We wish to give a massive thank you to our sponsors, without whom it would not be possible to successfully run events like this. Please visit our club website and click on the Sponsors tab for a full list. Click on their names to go to each sponsor's website.

Just to mention a few:

Our key Club Partners are Little Audrey Charters, Short Marine and IBW Constructions. Their continued support of our club cannot be understated.

Our Gold sponsors are Fishing Station, Furuno, Otto's Tackle World and Sylvania Marina.

We thank all of our sponsors. Please support the sponsors that support us!

# Focus on Little Audrey By Greg Wall

So this month I thought I would talk about the Charter boat owned by our Major Sponsors (Phil and Vicki) from Little Audrey Charters.

So I need to good place to start. Firstly from what I understand it's the largest Game Fishing Charter boat in Australia (and if it's not it's bloody close). She's 55 Tonnes of Game Fishing Luxury and if you ever wanted to take out some of your top clients and introduce them to game fishing you won't find a better option.

I have been lucky enough to have been on Little Audrey several times both in Sydney and also up in Port Stephens. Actually, if you are looking for a reason to escape Sydney for a little bit Little Audrey is heading up to Musgrave Reef and Fraser Island for October and November this year and they still have some dates to fill. Certainly a prime location to wet a line on one of the best Charter boats in the business. If you are interested speak to Dan Carlson on 0408 078 624 to check availability and tee up some dates.

Only a month or two ago I had the opportunity of chartering Little Audrey for one of my clients in the city (a Chinese Bank) who are a big player overseas. Little Audrey took them and a few of their VIP clients out on the water for a day's fishing. Dan, Josh and I did a meet and greet first with management at Birkenhead Point a week or so before and then did a pickup from the steps of the Opera House on the day. It was a fantastic day, the Little Audrey team put on an amazing spread of food (prawns, oysters, sushi, gyoza, fruit platters...) and drinks and we even managed to have some fresh kingfish sashimi. They had an absolute corker of a day full of laughs and fun and fishing.

Little Audrey herself is a beast of a Game Fishing boat at around 76 feet long she pretty much takes up the SGFC wharf on her own. From the back deck you enter the main lounge area with entertainment system and flat screen TV and the galley. From here you can either head down the stairs to the bedrooms and WC's or take the internal spiral staircase up the main cockpit area and a view over the back deck. For those brave enough (and preferably not in a big swell) you can head all the way up to the crows nest for a birds eye view for miles. This is where all the action takes place as captain Dan keeps a watchful eye out from up top for bust ups, bird life and even a change in colour. Dan obviously mustn't be scared of heights.

If you ever get the chance to spend a day on Little Audrey I suggest you take it. For me it was just a great excuse to have a day off work and play ambassador for the day. We were lucky too as it was a perfect day off Sydney, calm flat seas and not too much wind. Couldn't have asked for a better day and I'm already thinking about my next excuse to go out with them again.

Here are some specs on Little Audrey for those that love the detail.

Boat Name Little Audrey

Owner Phil and Vicky Webster

Model Warren Yacht

Registration 28673QC

Body Colour White

Fly Bridge (Y/N)? Yes and it's a long way up

Length or OAL 23.10 Metres (76 ft)

### The Origin of the Wind On Leader

Growing up on the west coast and learning one day at a time on the party boats pushed us to do things better and simpler. Some of the first long range trips to the Revillagigedo Islands which included Clarion, Socorro, San Benedicto, and Roca Partida, where some of the early days of learning about the difference between monofilament and braided line. In the 80's monofilament line was pretty much all that was used except dacron line. All the lines fished on the big reels where 80 and 100 lb monofilament with knots tied directly to hook and you were at the mercy of where you hooked the fish. Circle hooks were not available and many fish were lost due to the fish wearing through the mono Line with their teeth. If they used leaders it was either done with a knot which on larger diameter mono was extremely hard to tie. This lead to a lot of anglers having faith invested in crimping leaders and hooks, which done incorrectly lead to lost fish.

### The results of a properly tied Wind On leader

When braided line pioneers like Russ Izor came onto the scene in the late 80's early 90's the world of fishing line changed for the better. Anglers were able to get more line on the same reels they were using for mono which gave them the confidence towards landing bigger fish that had eluded them in the past. Gudbrod, early manufacturer of dacron line had a little diagram on the spools of their line showing anglers how to serve line in the hollow core. It took a few thinking anglers, that were light years ahead to figure out ways to create these loops, and insert monofilament into these hollow lines, creating some of the first wind on leaders ever used.

### Wind on leader

It was in the late 90's and early 2000's that the wind on leaders became more popular among the fishing fraternity and became a staple product for long range / big game anglers everywhere. The anglers adopting braid and figuring out

the knots where some of the first to land large fish on braided line with wind on leaders. When the fishing industry as a whole started to adopt braided line the need for a clean leader connection was important and the knots necessary where adopted.

One knot that has been critical through all these years has been the bimini twist knot which was used for years to attach hooks to the line when monofilament was used. This knot was deemed as a double line knot, used world-wide by guys trolling, and was adopted by the long range crews to strengthen their lines when bigger yellowfin tuna were in the mix. The early big game guys figured out that with the loop on the bimini twist, and the new way they had been creating leaders by serving the hollow dacron line they might have something, especially after they figured out how to serve the monofilament leader into the dacron line. As the idea progressed, anglers came up with new and better ways to make the Wind on leaders to where we are today.

The wind on leaders have been adopted pretty much globally for all types of fishing. With the introduction of fluorocarbon you will find wind on leaders in tackle boxes everywhere. They make it relatively easy to join your mainline to your leader when done the correct way.

Tying a bimini in your main line will be the first step in the process. You can google how to tie a bimini twist knot on line. IF you click ton the image it will send you to

video showing you a very basic bimini twist knot that will work fine. You can also surf the web for other renditions of the knot.

Once the you have mastered the bimini, click the picture of the wind on leader to go to a step by step guide on how to make your own wind on leaders.

# Bondi Junction Timber and Hardware has been an icon in Bondi Junction for over 40 years

We pride ourselves on customer service, offering exceptional advice for your next project or build.

Our small team of knowledgeable staff are ready to advise, help and deliver your timber and hardware products across the Sydney area.

We offer a wide range of timber, mdf plywood, building hardware, cement products, building products, key cutting, doors, architraves and skirting.

Come in today and let us help you out.

# What is it and what does it do: a guide to the ectoparasites on Sydney's Mako Sharks

Now that it's make shark season, what better time to have a look at some of the many parasites that live on the outside of make sharks. Make's are absolute buffets for different parasites, everything from their skin, gums, gills and meat itself are all up for grabs. In order to capitalise on different make body parts, the parasites vary hugely in shape, size, structure and even behaviour.

### Sea lice

As with most game fish, some of the most common parasites found on mako sharks are sea lice. Most of these have little impact on the health of the shark. Sea lice are small to medium copepods which have large heads (can be blocky or round) and a smaller tail, often finished with long stringy egg sacs. Sea lice typically attach to the skin of mako sharks, though they can sometimes be found in the mouth depending on what they're feeding on. Sea lice are mostly found attached to the skin on the tails or fins of makos. One of the main reasons for this is that out on the fins and tail, the sea lice are safe from being eaten by remoras (sucker fish).

While there are over 20 species of sea lice known to occur on makos, the two most common kinds in Sydney Makos are sea lice from the *Pandarus family* and *Dinemoura latifolia*.

### Anthosoma crassum

Anthosoma crassum occurs inside the mouth of mako sharks, feeding inside the gums of the shark. The large open lesions this parasite creates while feeding in the mouth of the mako are open highways for all sorts of infections. Some makos have even been found dead with severe bacterial infections caused by the open Anthosoma crassum wounds.

### **Nemesis lamna**

These small copepods attach themselves to the gill filaments of the make shark. As all the blood in the make shark is pumped through the gills, they provide rich food for the parasites. Unfortunately, we know very little about the impacts that this parasite has on the shark, more research is needed!

One of the most common mako shark sea lice, *Dinemoura latifolia*, in the lab

A colony of sea lice (*Dinemoura latifolia*) attached to the tail of make shark

A sea lice belonging to the Pandarus family being processed in the lab

A particularly severe Pandarus sea lice infection in the mouth of a make

Lesions caused by *Anthosoma crassum* in the mouth of a mako

Anthosoma crassum poking out of the mouth of a small make shark

An image taken in the microscopy lab of *Nemesis lamna*, found in make gills

### **SAINTLY WHISPERS**

### **Sperm Count at 79 Years Old**

OLD people have problems that you haven't even considered yet!

A 79-year-old man was requested by his Doctor for a sperm count as part of his physical exam.

The doctor gave the man a jar and said, 'Take this jar home and bring back a semen sample tomorrow.'

The next day the 79-year-old man reappeared at the doctor's office and gave him the jar, which was as clean and empty as on the previous day.

The doctor asked what happened and the man explained,

'Well, doc, it's like this -- first I tried with my right hand, but nothing.

Then I tried with my left hand, but still nothing.

'Then I asked my wife for help. She tried with her right hand, then with her left, still nothing.

She tried with her mouth, first with the teeth in, then with her teeth out, still nothing.

We even called up Alice, the lady next door and she tried too, first with both hands, then an armpit, and she even tried squeezin' it between her knees, but still nothing.'

The doctor was shocked!

You asked your neighbour?'

The old man replied,

Yep, none of us could get the jar open.'

Love the SAINT

# Sylvania Marina

### www.caribbeanboats.com.au

For over 35 years Sylvania Marina and the Ghosn family have proudly had an involvement in Game fishing and Game fishing clubs, in one way or another. From selling and setting up some of the most successful tournament winning boats in Australia to giving a bit of advice on fishing or helping a club run its tournament, we have always been there.

Our business doesn't start and finish with being Australia's largest Caribbean dealer, our 50+ berth marina also offers all aspects of maintenance, including antifouling, detailing, marine electronics, game fishing equipment, repairs both structural and mechanical as well as some good old fashion advise. From buying your next boat, to insuring it, to maintaining it, we can help.

Sylvania Marina proud supporters of Game Fishing for over 35 years!
